

System Pressure Advisory!

The water consumers of ORIENTAL WATER SYATEM, in PAMLICO County are experiencing periods of low pressure and outages in the distribution system due to VALVE REPLACEMENT. AFFECTED AREAS ARE FROM 1202 BROAD STREET TO THE BRIDGE, INCLUDING MIDYETTE, MILDRED, RAGAN HODGES, WINDWARD, WHITTAKER POINT, SKIPPER, SEAFARER, AUDOBON, PETERSON, LINK, NEUSE ST, NEUSE DRIVE, SOUTH AVE, SOUTH WATER, APPLE, FIRST, SECOND, THIRD AVE, KING, MAIN, AND NORTH ST. AND INCLUDING ALL ADJACENT STREETS. Periods of low or no pressure in the distribution system increases the potential for back siphonage and introduction of bacteria into the water system.

Therefore, when water service is restored, consumers are advised to **boil all water** used for human consumption (including drinking, making ice, brushing teeth, washing dishes and food preparation) or use bottled water.

Vigorous boiling for one (1) minute should kill any disease-causing organisms that may be present in the water.

Water customers are strongly urged to conserve water whenever possible. This advisory will remain in effect until further written notification is issued.
